

Serving Stagecoach Property Owners

Winter 1985

A MESSAGE FROM YOUR BOARD OF DIRECTORS

You have just received the first issue of the STAGECOACH EXPRESS, the new publication of the Stagecoach Property Owners Association. We hope that this will become a permanent replacement for the smaller newsletter sent to the Property Owners in the past.

We are taking this step because of a significant increase in important activity in the Stagecoach area and along the Yampa River Valley between Stagecoach and Steamboat Springs. We feel that it is important for you to be kept informed and we hope to do so through the articles you will find in the EXPRESS.

Of greatest significance is the progress being made towards the construction of the Stagecoach Reservoir. (See article in this issue of the Express). With regard to the Reservoir, there are two matters in particular that we want to make you aware of.

FIRST, you should know that many organizations and individuals, most of whom having no direct connection with the Stagecoach area, have contributed greatly by their efforts or financial support, or both, to achieve the progress made to this point. This group includes the directors and the voters of the Upper Yampa Conservancy District who have accepted the \$15,000,000 debt burden of the project. It includes the majority of the Colorado State Legislature, who have, in effect, approved a subsidy in the form of \$6,000,000 of lowinterest loans. It includes the U.S. Bureau of Reclamation which is being asked to give additional financing, and it includes the major owners of adjacent private lands who have agreed to make contributions of land or money

SECONDLY, at each step of the process, concern has been expressed by various persons that Stagecoach property owners would receive a "windfall" benefit from the Reservoir. It has been stated often in these discussions that the lot owners should be willing to make at least a modest contribution. Your Board of Directors responded by recommending that an assessment of \$10.00

per lot be made for the 1985 year, with the funds collected to be used to assist the Upper Yampa Conservancy District in developing recreational amenities around the Reservoir. This recommendation was approved at the Association's Annual Meeting on July 28, 1984.

Other, more permanent, steps will probably be recommended later by your Directors, in order to provide additional support. Such support may be through the creation of a recreation district or through the expansion of the existing Morrison Creek Water and Sanitation District.

In order to keep the momentum going on this project WE NEED THE SUPPORT OF THE PROPERTY OWNERS. We urge that you keep in touch through letters and by attending the annual meetings. IT IS ALSO ESSENTIAL THAT WE RECEIVE YOUR FINANCIAL SUPPORT BY THE PROMPT PAYMENT OF DUES AND ASSESSMENTS. These funds are essential if we are to participate with the various state and local government agencies in planning and other important matters for the benefit of the property owners at Stagecoach.

A convenient clip-out form has been included in this issue of the STAGECOACH EXPRESS for the purpose of summarizing assessments and dues. PLEASE HELP. WE CANNOT ASSIST YOU WITHOUT YOUR FINANCIAL SUPPORT.

This message is from your Stagecoach Property Owners BOARD OF DIRECTORS who also take this opportunity to WISH YOU ALL A HAPPY AND PROSPEROUS 1985. Hope to see you at STAGECOACH.

Serving Stagecoach Property Owners

Winter 1985

Progress made on Stagecoach Reservoir **Project. State approves \$6 Million Loan**

By AL SATERDAL

A large map of the proposed Stagecoach Reservoir is included on pages 4 and 5 of this newstetter. We hope that you will find it to be a convenient reference as we discuss progress of the Reservoir in this and later editions of the Stagecoach Express.

editions of the Stagecoach Express.
This map was prepared for the Upper Yampa Water Conservator District for presentation to the Colorado Water Conservation Board, the Colorado Legislature and others, in order to gain support for the District's efforts to obtain funding.

and others, in order to gain support for the District's efforts to obtain funding. Considerable important progress has been made to this date, toward construction of the Reservoir and there is good reason to feel that it will be built within the next 2 to 5 years, in spite of the fact that several major hurdles remain to be overcome. All things considered, this progress is the most positive happening at Stagecoach since the Woodmoor bankruptcy in 1974. Major accomplishments so far include the favorable action by the voters of the Upper Yamporing the Reservoir. This election took place in May 1984. Also in the same month, the Colorado Legislature approved a \$8,000,000 tong term, low interest rate loan for partial funding of the Reservoir. Two substantial obstacles remain to be dealt with before construction can be com-

Two substantial obstacles remain to be dealt with before construction can be commenced. First, an Environmental Impact Statement must be prepared, reviewed and approved. Initial draft of this statement is anticipated in late 1944. The review period will probably require all of 1945. We can expect opposition from some elements of the environmental movement in particular. The second remaining major obstacle is the procurement of the balance of the needed funding. This balance totals an estimated \$7,000,000. Application has been made to the U.S. Bureau of Reclamation for a grant of \$3,000,000 and a long term loan of \$4,000,000. It appears that the project qualifies for such Reclamation assistance, but availability of funds is in some question. In favor of this funding are the facts that the amount is relatively small, that partial funding has already been approved from the State of Colorado, and that the District's voters have voted favorably to accept the debt.

Following is an effort to answer some of the other questions that property owners will have regarding the Stagecoach ReserPreliminary Technical Data

DAM
Type — Roller Compacted Concrete
Crest Eflevation — 7,208 Feet MSL.
Crest Length — 450 Feet
Height above Streambed — 146 Feet

Design Flood Crest — 7,205 Feet MSL
500-Yr. Flood Crest — 7,205 Feet MSL
Flanned Uses
As planned, the Reservoir will be a multiple use facility, including recreation and water storage for muncipal, industrial and agricultural purposes.

Recreation
It is anticipated that for most of the year
the Reservoir will be full. Lade summer to fall drawdown will normally be less than five vertical feet. At worst, in the case when there are several consecutive drouth years, maximum drawdown could be up to 23 feet. The effect of the drawdowns would be felt mainly in the western part of the be fell mainly in the western part of the Reservoir,

The Reservoir will be operated by the

the Reservoir will be operated by the Upper Yampa Water Conservancy District, who will probably contract out recreational management to the Colorado Division of Parks and Outdoor Recreation. In view of the relatively small size of the Reservoir, it is the present concensus that recreational use of the water surface and any public camping will be tightly controlled. Sail boats and small fishing boats will probably be allowed by permit.

Public Camping and Boat Launching ... A public park will be restricted to an area in the central part of the north shoreline, as indicated on the accompanying map. A small overnight camping facility (100 campsites) will be established so as to have minimum visual impact on the rest of the shoreline. Most of the camping activity will be shielded from view from the south by

high ground which borders the Reservoir. In addition to the park area described, there will be a public easement completely around the Reservoir, which will be at least 100° wide. These public easements are also shown on the map. With exception of the campsite area previously described, all public access easements would be essentially limited to supervised daytime recreation.

South Shore Marina - Commercial Area South Shore Marina - Commercial Area Preliminary plans are to encourage the construction, with private funds, of a major high-quality marina - restaurant - hotel, on the inlet near the central part of the south shore of the Reservoir. This would probably involve an arrangement with the private owners of unplatted lands and a lease from the District.

the District.
Discussion of the Stagecoach Reservoir construction effort would be incomplete if the critical role of the Upper Yampa Conservancy District's chairman, Mr. John Fetcher of Steamboat Springs, was not acknowledged. John has been a major factor in giving Routt County its strong position in the ski Industry. This industry is now the

31749, Aurora, CO 80041,

largest and fastest growing in Colorado's Western Slope. If the Stagecoach Reservoir is finally built, as expected, it will be due mainly to the ability and dedication of John Fetcher, to the goal of doing worthwhile things in Rout County.

Your directors and editorial staff plan to

keep you posted on progress relating to the Reservoir.

NOV. 13, 1984 BOARD MEETING

I. Directors present were: Dunn, Dashow, Hollemon, Kanoldt, Snoden, Saterdal, Kauffman. Absent were: Forbest Klotz. Also present were Art Fine, counsel for the Association. Guest present: Carol Green, President of Eagles Nest Townhouse Association.

Previous minutes were approved. II. Treasurer's report by Dunn: \$ 5,918.94 balance in regular checking

\$ 0,918.94 manner in regular checking account 10,000.00 Certificate of Deposit 2,000.00 in special interest account \$17,918.94 Total Funds HI. Committee Reports: Dashow reported for the Architectural Control Committee that a late summer inspection tour of property revealed possible violations in Sky Hitch, Black Horse II and Eagle's Watch subdivisions. These consisted of such things as trailers parked on lots, dangerous uncompleted structures, vehicles stored on roadway and unpainted roofs. Attorney Fine reported on contacts made with lot owners and steps taken to correct violations.

Recreational Use Committee report by

Recreational Use Committee report by Snoden and Saterdal stated that its original Snoden and Saterdal stated that its original objective here was to start mapping out the common areas and making rails for use by cross country skiers and hikers in a fashion similar to what has been done in Steamboat and is planned by Routt County along the Yampa River from Steamboat to Lake Catamount. Snoden noted that the U.S. Forest Service has a financial program coming out to fund these kinds of projects. He will obtain prices for graded footpaths and provide a map of common areas by the next board meeting in February.

Legal Status Report was given by atomey Arthur Fine on Letter of Credit funds for roads in Horseback and the status of efforts to resolve the Association's law-suit against the County for losing letter of

funds for roads in Horseback and the status of efforts to resolve the Association's law-suit against the County for losing letter of credit funds for roads in South Shore and Morningside.

Fine recently toured the Horseback subdivision with the County Attorney and the County Road Inspector, Joe Turon, and discovered that it may be less of a problem to build a road to county specs in this area than previously imagined. However, \$200,000,00 is not enough to complete the whole road throughout fine subdivision. Fine has contacted a surveyor and contractors to obtain cost estimates. A general discussion was field concerning allocation of the funds and sources for the additional funds needed to complete roads in Horseback.

Fine was asked whether the townhouse areas are governed by the by-laws and covenants of the POA. He said Projects I and II were never included in the covenants originally filed by Woodmoor with the County of the said Projects and II were never included in the covenants originally filed by Woodmoor with the County of the said Projects and II were never included in the covenants originally filed by Woodmoor with the County of the property of the said Projects and II were never included in the covenants originally filed by Woodmoor with the County of the property of the property

and II were never included in the covenants originally filled by Woodmoor with the County. Therefore, the POA may not have jurisdiction over these areas, thus presenting a problem in consistent responsibility for the whole development area. The covenants apply to the Meadowgreen subdivision, which means Wagon Wheel and Eagle's Nest townhouses are subject to the covenants that apply throughout Stagecoach. On the matter of the Newsletter, Dashow and Salerdal reported findings on cost and

and Saterdal reported findings on cost and suggestions on content of a quarterly publi-cation to the POA. Saterdal presented 2

estimates: (a) Tanglewood Graphics high quality 16-page standard sized stock (2000 copies malled) at \$2,200.00 and (b) Centernial Press tabloid format newspaper stock of equivalent size (3000 copies mailed) at \$783.00. Besides being so inexpensive, the tabloid format would handle photos, maps and masthead much better than the standard newsletter format. It also would permit a budgetable means of informing the POA of quarterly news developments.

Dashow outlined ideas for contents of the newsletter, which would include sections on lot sales. reservoir and skil area develop-

lot sales, reservoir and ski area developnot sales, reservoir and ski area develop-ment, survey of lot owner attitudes, board meeting highlights, Event Calendar, let-ters, building information and services, county news, property listings by brokers, lot owners and others, change of address form and assessment notices.

Long Range Planning Seminar. Snoden reported only four board members have submitted their notes, and he's awaiting more notes from others and planner Notan Rosall before finalizing publication. It should be ready by the next Board Meeting. Hollemon reported a cost estimate of \$1,050/300 yd. of fill to repair road over culvert leading to Sky Hitch I-IV and South Station, provided fill is available within 1 mile radius. As more roads are opened, a problem will be created if trespassers take advantage of them and make deep ruts in the ungraded roads.

Dunn reported that all insurance policies have been obtained. Payment of legal fees for the road fund cases was discussed. Fine pointed out that the attorney fee will be paid from the county settlement in Horseback. The fee for the South Shore/Morningside work will be reimbursed to the Association out of any recovery obtained by judgment or settlement. Dunn moved to pay \$2.50.00 toward Fine's current bills. Motion seconded and carried. New Business: Carol Green, president of the Eagle's Nest Townhouse Association, spoke briefly about their new association comprised of 33 homeowners, 80% of whom are owner/occupants, some are weekenders, some speculators, some seasonal. Assessments by both POA and Townhouse Association is to be maintained. They are looking into buying dish TV antenna. Resi-

hefore the meeting, it was adjourned upon hefore the meeting, it was adjourned upon motion duly seconded. Next Board Meeting set for Tuesday, February 12, 1985, in Denver, Colorado at the Hollday Inn Sports Center at 7:30 PM.

ROCKY MOUNTAIN AIRWAYS PLANS TO INCREASE STEAMBOAT SERVICE 43%

From the Steamboat Pilot - Nov. 15, 1984

Rocky Mountain Airways will increase by nearly 43 percent its number of Steamboat Springs flights this winter.
From Dec. 16 through April 14, 1985, the Denver-based commuter atrine will offer en average of 20 flights per day to and from Bob Adams Field-Routt County STOLport.
In the winter of 1983-84, Rocky Mountain averaged 14 flights per day.
"I think it's a display of our optimism for the ski Industry in those three markets we serve," said Dennis Heap, Rocky Mountain's vice-president for customer sales and service.

service.

The airline has experienced consistent growth in Steamboat passenger traffic since inaugurating service in 1971, with the exception of 1980 and 1981.

exception of 1860 and 1861.

Rocky Mountain went from 58,754 total
Stearnboat filers in 1979 to 41,023 in 1981, but
has rebounded to 56,628 in 1982, 55,284 in
1983 and 62,928 through October this year.

Beginning Dec. 15, Rocky Mountain will offer 18 Steamboat flights per day Monday through Thursday. That will increase to 20

orier is steamboat hights per day Monday through Thursday. That will increase to 20 flights on Friday, 24 on Saturday and 22 on Sunday.

The earliest flight leaving Denver for Adams Field will depart at 5:30 a.m. Saturdays and Sundays. The latest flight from Denver has a scheduled take-off at 9:30 p.m., Friday through Sunday nights.

Flying from Steamboat to Denver, the earliest plane will depart at 6:30 a.m., Saturdays and Sundays. Denver-bound passengers can leave Steamboat as late as 10:30 p.m., Friday through Sunday nights.

Basic one-way fare hetween Steamboat and Denver will be \$62 midweek and \$73 weekends, with a variety of discount options available.

For example, round-trip price will be \$62 for the two earliest and two latest weekend flights.

ANNUAL MEETING HIGHLIGHTS

(July 28, 1984 - Steamboat Springs, Colorado)

The program began with guided tours of the Stagecoach area. Afterwards, a good old-fashioned plenic BBQ provided the perfect atmosphere for informal discussions among lot owners and Board members. Later, the formal portion of the meeting was held at the Sheraton. There follows lowed a cocktail party, and a good time was

lowed a cocktail party, and a good time was had by all.

Art Snoden explained the newly-published Architectural Control Manual, a result of considerable work, which explains the covenants, new building procedures, and design philosophy in easily understood language, and provides each owner with a check list for building in Stagecoach.

'Attorney 'Art Fine' explained that the Roint County District Court will direct how the County District Court will direct how the County Will utilize the \$200,000.00 allocated for roads in the Horseback sub-division. He also described the status of the suit by the Association against the County for its loss of road funds for the South Shore and Morningside subdivisions.

for its loss of road funds for the South Shore and Morningside subdivisions.

Robbie Robinson of the Townhouse Association, spoke about possible purchase of the old sales office by the POA for some future community use. Extensive refurbishing of the roof and plumbing makes it economically difficult to convince individuals to invest the necessary funds to buy it and maintain it at this time. No decision was made on participation by the Association in this venture.

Al Saterdal reviewed the status of the reservoir. State funds are allocated but not as yet available for use. A proposed environmental impact statement is being prepared. Estimates are 1988-87 for start-up, and 1988 for filling.

nd 1988 for filing. Erick Glanz from the Morrison Creek

Metropolitan Water & Sanitation District metropoutan water & Santation District's spoke about the reduction of the district's initial debt from \$3,600,000.00 to \$1,200,000.00 by Issuing bilind calls on the bonds for cash at \$2,55/\$1.09 face amount. At the present rate of retirement, he estimates the district will be free of debt in the 1990's. The district win be free of deat in the 1990's.

The district is conducting a study of what to
do with the available funds. Maintenance is
planned next spring on the leaky sewer line
above Eagleswatch and Black Horse II. above Eagleswatch and Black Horse II.
Also, more usage of the Black Horse water
line will be necessary to prevent winter
freeze-up of the line. Water is not available
in South Shore at this time. Several wells
drilled there were of poor quality, so water
"WII have to be puripped from other places." Meadowgreen is more cost effective, since taps and water supply are readily available

taps and water supply are readily available now.

Herb Hollemon was nominated to the Board to replace Bill Riner, who did not seek renomination. Hollemon lives in Stagecoach and owns other lots there. Hollemon, Art Snoden and Norm Dunn were elected to new 3-year terms on the Board.

Discussion was held concerning a Special Assessment to provide funds to Upper Yampa District for use in connection with recreational activities of the reservoir. A \$10.00 per lot assessment for 1985 proposed by the Board was approved. Attorney Pine offered the services of his office in administering the collection of the assessment from lot owners.

owners.

It was decided that the next annual meeting will be held in Steambast and the 3rd weekend of July, 1985, repeating the same format as this year (tour, picnic, meeting, cocktall party).

EXPLANATION OF LOT OWNER ASSESSMENT"

The following is a copy of the press release issued by the Board prior to the election that approved bonding by the Upper Yampa Water Consorvancy District for the Stagecoach Reservoir Project:

"A special meeting of the Board of Directors of the Stagecoach Property Owners Association was held in Denver on April 17, 1984. Purpose of the meeting was to determine the position that the Board should take relative to financial support for the proposed Stagecoach Reservoir. It was manimously agreed that the Board favors a proposal for an assessment of \$10.00 per lot, to be assessed on all of the lot at Stagecoach, and will recommend approval by the property owners at the next annual meeting of the Association on July 28, 1984.

annual meeting of the Association v. 28, 1984.

This assessment would be levied on approximately 1890 lots and thus have a total value of \$18,000.00 for the 1985 year. The funds collected would be used for the purpose of assisting in the development of the Stagecoach Reservoir and will be available to offset some of the recreational ob-

ilgations of the Upper Yampa Water Con-servancy District.

This action is viewed by the Board as an interim financial support measure. The Board has additionally contracted with the planning firm of Rosall Remmen Cares, Boulder, Colorado, for a study aimed at recommending long term funding options to support the recreational amenities which would be provided by the Stagecoach Reservoir.

would be provided by the Stagecoach Reservoir.

The Stagecoach area is already within the boundaries of the Upper Yampa Water Conservancy District and will be subject to the existing authorized levy of 1.4 mils.

According to the Board, the proposed assessment for 1985 is the only way that Stagecoach owners can provide immediate financial assistance for the Reservoir. For the owner of a \$50,000.00 townbouse this assessment is equivalent to an additional 0.8 mils. For the owner of a \$2,000.00 lot the \$10.00 assessment is the equivalent of 24 mils. There are approximately 184 townbouse units and 1600 sold, undeveloped lots at Stagecoach." lots at Stagecoach."

Important Part of Upper Yampa Valley Recreation Complex

by A. Saterdal

by
A. Saterdal
The potential importance of
STAGECOACH to development of the Upper Yampa Valley Recreational corridor
can be best understood by referring to the
map on this page. Pressures for development at STAGECOACH will probably be the
result, in large part, of what is happening in
adjacent parts of this fast growing recreational area. A summary of important ski
area trends and activity at key parts of
Yampa Valley Complex follows.
First, it is important to realize that skiling
is the largest and fastest growing industry
in Western Colorado, in terms of investment, employment and tax revenues. Statewide, skiling ranks third, behind agriculture
and energy (both of which are showing
signs of slowing growth.)
To date, about \$5 billion has been invested
in ski-related activities in Western Colorado. Approximately 70% of this amount
has been invested in housing. In 1984, Colorado ski areas spent over \$52 million, which
is more than 50% of the total spent in the
entire U.S.

While the ski industry is still growing at

entire U.S.
While the ski industry is still growing at
over 5% per year, this rate is down from the
18% per year growth of 10 years ago. With
the decreased growth rate, competition be-

the decreased growth rate, competition between areas is becoming more apparent. Fortunately for STAGECOACH, Steamboat (Mt. Werner) is emerging as one of the "gianis" in the Colorado ski industry. Along with emerging competition, is the growing recognition of the need for complimenting summer recreational facilities. The STAGECOACH reservoir will be an important contribution to summer recreation.

tion.

In addition to recognizing the need for summer attractions, there is also a growing awareness that cost competition will become more critical to survival. One of the biggest factors in cost, control is, cheap, convenient transportation including transcontantial nackaged duris which can faciliconvenient transportations including transcontinental packaged tours which can facilitate "promotional rates". This requires
proximity to a major sitport, which none of
the large Cotorado ski areas presently enjoy. The Steamboat area is blessed with
such a potential with its Yampa Valley
Airport - 20-40 miles from all destination
points in the Upper Yampa Valley — in a
wide open valley at an elevation of 6600'.
Access to most of the Valley is by US 40 and
involves no mountain driving. None of the
major competing ski areas in Colorado
have this potential. Summary of important
developments in the Upper Yampa Valley
complex are discussed below:
Mount Werner

Mount Werner

Mount Werner
Is now sowned by the Steamboat Ski Corporation, Martin Hart is the manager for a well-financed group of investors. For the 1894-55 season, the Steamboat Ski Corporation spent \$4.2 million in mountain development alone, resulting in a 40% expansion. New mountain capacity totals 23,000 sklers per hour, giving Steamboat the top uptill capacity in Colorado.

Breacans Golf Course - Country Club

top upfill capacity in Colorado.

Breacans Golf Course - Country Club
A group of Knoxville, Tennessee, investors are involved in a large scale luxury
Condominium - Country Club complex south
of the main Mt. Werner Development. Two
large huildings are under construction, with
the Eagle Ridge Condominium Units reportedly priced between \$450,000 and
\$1,250,000 per unit. Further south, at the
junction of US 40 and Colorado State Highway 13t, the Breacans Country Club - Sports
Center Complex is under construction. Most
of the grading has been completed for as 27hole golf course. This sports complex is
designed mainly to accommodate residents
of the Eagle Ridge Condominiums. Public
access to this facility may be limited.
It has been reported that the total development plan calls for the expenduture of
\$255 million, of which \$40 million is to be
spent on the golf-sports complex. The scope
of the undertaking is breathfaking — unbelievable to some. We wish them weil. It's
only nine miles by road from the north
entrance to STAGECOACH.

Lake Catamount

Lake Catamount

To the best of our knowledge, this lake
and adjacent property, totaling 3200 acres,
is still owned by the First Interstate Bank,
who took the property over from the origlinal developers. According to the Steamboat Pilot of 3/948, Mitchell Energy and
Development Company of Houston, in conjunction with the Steamboat Ski Corporation investor group, is conducting a development feasibility plan. Mitchell, a Fortune 560 firm, would be the principal developer.

veloper.
Catamount has the potential for development of a major destination resort ski area, somewhat comparable to Mt. Werner, with nearly 3000' of vertical relief.

nearly 2000° of vertical relief.

Yampa Valley Airport

Development of this airport to its potential to serve as a transcontinental charier transportation link is not in sight at this time. The STOL airport at Steamboat presently handles practically all of the air transportation to this area, since Frontier Airlines trimmed its Convair service last

Airlines trimmed its Convair service has year. Rocky Mountain Airways schedules numerous filghts between Denver and the Steamboat airport (Bob Adams field). Editorlals in the Steamboat Pilot recognize the ultimate needs and the benefits to come from development of the Yampa Valley Airport:

"GETTING PEOPLE HERE
Recent marketing studies for the
ski industry point out two key problems if Colorado ski areas are going
to continue to attract out-of-state
sklers...tising costs and ease of transportation.
The secret is to set the recele trans-

sklers...rising costs and ease of transportation.

The secret is to get the people here.
This brings up the transportation
problem... Utah-has, wooed a lot, ofsklers because of the ease of Hying to
Salt Lake City and being at a major
skl area an hour later.

Most skiers coming to Colorado fly
to Denver and then are faced with
a three- or four-hour drive by car.

Or they are faced with another twoor three-hour plane connection and
flight to Steamboat, Aspen or Vail.
It is apparent that especially with
large groups a jet flight to the Yampa
Valley airport would solve this problem.

lem. This is something that neither Vail nor Aspen can offer so we should capitalize on this benefit. Both County airports are needed to take, care of completely different weeds.

needs.
The County Commissioners we elect this fall should be in favor of this concept."

Printed 8/12/84

...Printed 8/12/84

And again:

"WRY CAN'T WE?

Eagle County has received a Feder-al Aviation Administration grant of

Eagle County has received a Federal Aviation Administration grant of \$1.7 million for its alrport.
What is amazing is they did not even apply for the grant until one week before it was given.
What were our County Commissioners doing?
It would be interesting to know."
...Printed 10/11/84
A notice in the Steamback Pilot on \$16/64 solicited statements of qualifications from Airport Engineers for airport projects planned for the Yampa Valley Regional Airport, including updating the master plan and resubmitting preapplication for Federal funding.
When the capacity of the Upper Yampa Valley recreational corridor reaches a critical size, pressure to upgrade this airport will likely occur and the Upper Yampa Valley resorts will achieve a unique economic advantage.

STEAMBOAT SPRINGS INVESTS HEAVILY TO **ENCOURAGE SUMMER TOURISM**

There is a growing awareness in Colorado, and particularly in the giant ski centers of western Colorado, that there is a great need to attract more residents and visitors during the elght months when the ski slopes are shut down.

With a capital investment of some \$4,000,000 (that's right FOUR BILLION), 70% of which is invested in housing, it is no longer tolerable to accept a level of business activity for eight months of the year which is only 50% of the winter level as in Steamboat, or worse yet, under 30% as at Vail.

The following except from the STEAM-BOAT PILOT of Oct. 10, 1984 illustrates the awareness of this problem by the communities - and the action that is being taken. It is widely recognized in Routt County that the STAGECOACH reservoir will assist materially in bringing more sumer activity to the Steamboat area.

Summer received a shot in the arm last week when City Council voted 4-3 to allocate 5 percent or an estimated \$196,000 of the 1985 city sales tax revenues to the Steamboat Springs Chamber Resort Association's summer marketing program.

With several Chamber members at his side, Bob Hammons made a polished presentation before council last Tuesday at the start of its all-day budget retreat.

The \$250,000 marketing plan will: identify two high-potential markets derived from research conducted this summer; develop

4.3% 計場報酬

five tour packages, three of which will be targeted to specific groups such as senior citizens, weekend, in-state visitors and indi-viduals interested in seminars tied to the viduals interested in seminars tied to the arts; develop and promote existing and new special events in Steamboat Springs; and develop overall promotional programs to include sales, advertising, collateral materials and public relations.

Council was urged by several organizations, including the Community Committee and the Steamboat SkiCorp., to support the Charaber in the endeavor.

and the Steamboat SkiCorp., to support the Chamber in its endeavor.

"The Community Committee backs the Chamber 100 percent in its request for city funding." committee spokesman Joe Lewandewski told council. "The one thing that came out of our five-month study, was the need to build a year-round economy for the community's over-all well-being.

Hammons and other Chamber members reminded council last week that the community can longer afford to sit back and

reminded council last week that the com-munity can no longer afford to sit back and do nothing when it comes to summer mar-keting. Included in council's packets was a list of what other resort communities spend on summer marketing. Durango spends the least at \$150,000 and Aspen spends the most at \$200.000.

least at \$150,000 and Aspen spends the most at \$230,000. "We either have to play in their ballgame or wash our hands completely of summer marketing," said Hammons. "It doesn't make sense to give up before we've had a chance to compete."

Winter bookings outpace 1983

From the Steamboat Pilot -

Reservations for ski season are up 111 percent compared to last year at the Steamboat Springs Resort Association Central Reservations office, Director of Reservations Paul Sears sald today.

Sears, in her monthly report to the Chamber board of directors, sald the figure was for boardings through Aug 31 and com-

Chamber board of directors, sald the figure was for bookings through Aug. 31, and compared dollar volume against last year. Number of people booked was also very strong, 89 percent more than a year ago, with group bushess leading the way with a 168 percent increase over last year. Dollar volume through August was \$907,031 compared to \$460,158 through Aguust, 1983. "Probably our most significant tigure is the increase in groups, 29 more than a year ago, and number of people in the groups, averaging 56 against 52 a year ago," Sears said. "That, and the consumers seem to know more what they want, and are not quite as price conscious as in past years." Reports from individual property man-

Reports from individual property man-agement companies also indicate a strong

year. Mountain Resorts is up at lear percent with inquiries much stror Steamboat Resorts reports its prope all up at least 25 percent and "people b ing earlier."

OUARTERLY BOARD MEETING HIGHLIGHTS (August 12, 1984 - Steamboat Springs, Colorado)

The Board met at the Bear Claw Condominiums. Present were Dunn, Forbes, Saterdal, Dashow, Snoden and Hollemon. Absent were Kickt, Kautfman, Kanoldt. Attorney Fine was present. New officers were elected for the year July, 1984-85. The year-President Norman Dunn, Jr., Vice-President Art Snoden, Secretary Russell Dashow, Treasurer Claire Forbes.

The Newsletter will be handled by Dashow with help offered by Saterdal and Forbes in trying to come up with a new format that would generate additional paid members in the Association.

Architectural Control Committee members were appointed for the coming year. They are: Russ Dashow, Art Snoden and Herb Hollemon.

Snoden, Kanoldt and Saterdal were pointed to a Recreational Committee review the property for (1) recreatic easements (2) open space use and (3) istence of National Forest trails contiguto Stagecoach for future access.

Hollemon asked for the Board's postion hunting in Stagecoach. All membagreed that no hunting, camping or fi are allowed in Stagecoach. Violati should be reported to the Routt-Co. Sherlf's office.

President Dunn asked Hollemon to ob cost estimates for road improvement culvert replacement in Sky Hitch, so 'easier access would be possible for a year's annual meeting tour.

INFORMATION DESK

Complete information is available to all property owners (PO's) for costs of printing and mailing. Send specific requests with check to: Editor, Stagecoach Express, P.O. Box 31740, Aurora, CO 80041. ALLOW 4 weeks for processing.

1. ARCHITECTURAL CONTROL MANUAL OF DESIGN PHILOSOPHY & BUILD-ING PROCEDURIS: Based on the recorded documents of coverants, conditions and restrictions of Routt County.

The manual simplifies the rigorous language into rules and regulations on dwelling size, building location, exterior surfaces, TV antennae, wells, fences, refuse, signs, animals, and so forth.

It also explains the procedures for obtaining Architectural Control Committee approval of proposed construction including documentation for submittal and forms requesting design approval.

2: ROUTT COUNTY BUILDING DEPARTMENT REQUIREMENTS FOR HOME-OWNERS RESIDENTIAL CONSTRUCTION.

Steps are outlined in applying for and obtaining a building permit. Also, fees are explained and further guidelines are provided for obtaining permits for electrical, plumbing, mechanical work.

Also available is a special 7-step outline on how to obtain a building permit in areas of Stagecoach not presently served by central sewer and water.

3. Also available are copies of LOT OWNER AGREEMENTS to submit to Routt County Building Department acknowledging present lack of county services in your area at time you wish to submit plans for approval. Application for permission to install well and sealed sanitary system is included.

4. DEVELOPMENT OF STAGECOACH RESERVOIR & CHRONOLOGICAL DE-VELOPMENT HISTORY OF STAGECOACH ROUTT COUNTY.

This report was compiled by Board member Al Saterdal of MountainAir Corp. based on 1962 publications in Colorado Ski Country USA. It is a very informative report covering such topics as tourism and ski industry in Colorado, impact on Denver and Routt County, growth trends, capital investment and other economic factors, projections, etc.

Also, report covers an historical recovery.

projections, etc.

Also, report covers an historical review of the Stagecoach concept and chronological development of the area by Woodmoor and MountainAir, revealing facts and figures on all planned amenities (subdivisions, water and sewer systems, roads, electricity, etc.). Included is information on Woodmoor's bankruptcy and subsequent ski and take

area sales.

Current status through 1932 is reviewed on Reservoir funding, Ski area facilities,

Current status through 1932 is reviewed on Reservoir funding, Ski area facilities,

Morrison Creek Water and Sanitation District, and Routt County planning status.

24 pp. (Incl. 2 maps, 2 drawings of Reservoir and Ski Area) \$21,00

5. MAPS OF STAGECOACH and INDIVIDUAL SUBDIVISIONS are available as a package (\$5.00) or individually on request (\$1.00).

6. SOURCE LIST of names, addresses, phone numbers of POA Board members and Routt County officials will be available in the next quarterly issue for reference by anyone wishing to obtain his own information directly from the respective "horse's mouth."

7. POA Listing by SUBDIVISION of names and addresses of your nearest neighbors may be available in early 1985. (\$20.00 per Subdivision.)

Requests for further information on various topics relating to STAGECOACH should be directed to: Editor, Stagecoach Express, P.O. Box 31749, Aurora, CO 80041.

IMPORTANT LEGAL NOTICE TO ALL STAGECOACH LOT OWNERS

Pursuant to the Stagecoach Declaration of Covenants, Conditions and Restrictions and the Articles and By-Laws of the Stagecoach Property Owners' Association ("the Association") and upon the recommendation of the Board of Directors of the Association, the following Resolution was adopted at the Annual Meeting of the Association on July 28, 1984:

"RESOLVED that an assessment be levied against each lot owner at Stagecoach in the amount of \$10.00 per lot for the assessment year beginning January 1, 1985, the assessment to be for the purpose of assisting in development of the Stagecoach Reservoir."

April 30, 1985, is the Due Date set by the Board of Directors for payment of this

\$10.00 assessment.

The assessment is a charge and a continuing lien on each lot in Stagecoach. The assessment, together with interest, costs and reasonable attorney fees, in the event of default, is a personal obligation against the owner of each lot at the time when the assessment falls due.

Any assessment not paid within thirty days after the Due Date shall bear interest from the Due Date at the rate of eight percent (8%) per annum. The Association may bring an action at law against the owner personally obligated to pay the assessment, or foreclose the lien against the property.

Stagecoach Property Owners' Payment of your assessment should be sent to:

Association

P.O. Box 31740 Aurora, Colorado 80041

To assure proper credit, you must include your lot number on your check. NORMAN C. DUNN, JR.

President
